

## TEFC Replacement Motors make happier customers. Case closed.

Single-phase totally enclosed fan-cooled (TEFC) replacement motors from Pentair provide longer service life and greater reliability than traditional open drip proof (ODP) motors.

### LONGER LASTING

TEFC motors last longer. That's because they're designed to help prevent the intrusion of water, dust and other contaminants that can lead to premature failure in ODP motors.

### TEFC MOTORS OUTLIVE ODP MOTORS

The enclosed design helps protect against contaminant trouble:

- Near irrigation/sprinkling systems
- Near roof drip lines
- Common in coastal environments
- Exposed under windy conditions
- Associated with dusty, dirty or sandy areas
- Where insects and spiders are common

### TRADEGRADE ADVANTAGES

These single-phase TEFC replacement motors are only sold through brick-and-mortar retailers, pool builders and service companies—includes a two-year warranty when professionally installed.

1HP Black

5HP Almond

## Single-Phase TEFC Super-Duty Replacement Motors

These long-life, TEFC motors fit any Pentair or Sta-Rite® pump that uses a 56 frame motor. They're enclosed for environmental protection and are designed for easy installation.

- Improved bearing life
- Ambient air does not enter motor, preventing interior corrosion
- Aluminum fan and anodized finish on aluminum motor frame
- Easy to wire, with easy access to large top junction box
- True commercial-duty motor
- No replacement motor supply restrictions
- 56 frame, single-phase, single speed, full rate
- Available in .75-, 1-, 1.5-, 2-, 3-, and 5-HP models
- Available in almond or black
- Two-year warranty when purchased via a brick-and-mortar retailer, a builder or a service professional and professionally installed
