

INTELLIFLOXF[®]

VARIABLE SPEED PUMP

The ultimate performance combination
for large and feature-rich pools

PENTAIR.COM

THE INTELLIFLOXF® VARIABLE SPEED PUMP SAVES MORE ENERGY THAN EVER BEFORE.

This remarkable pump was originally designed to combine the best of our IntelliFlo® Variable Speed Pump technology with a smoother, ultra-efficient hydraulic design. A more intuitive user interface makes programming a cinch. IntelliFloXF pump is equipped with a rotatable keypad for easy operation and viewing. Plus, an optional wall mount kit gives you greater flexibility.

Estimated cost savings of up to \$1,600 each year* versus traditional pumps.

*Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per kWh in a 20,000 gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.

POWERFUL AND ECONOMICAL

The IntelliFloXF variable speed pump gives you the power to operate large residential and feature-rich pools with waterfalls, slides, negative edges or other water features. And, its remarkable variable speed cuts energy use dramatically.

EASIER TO OPERATE

We've upgraded the pump interface so it's more intuitive and easier to use than ever. The display can be rotated for convenient orientation on the pump. Or, it can be placed nearby with an optional wall mount kit.

AUTOMATION READY

For even greater control, add an optional ScreenLogic® Interface to your Pentair automation system and access your pool from practically anywhere and at anytime using your smartphone, computer or mobile digital device, and now with the Apple Watch® wrist wearable device and Amazon Echo®.

Runs on the same principles as a hybrid car. The advanced permanent magnet motor is far more efficient than single- and two-speed pumps.

More environmentally responsible. Dramatically reduces electricity consumption.

- Even greater savings are achievable on larger pools requiring higher horsepower pumps.
- Extra-powerful pumping for large and feature-rich pools.
- Eight programmable speed settings with multiple scheduling options maximize efficiency.
- Exceptionally efficient permanent magnet motor.
- Ultra-quiet: TEFC motor and low-speed operation contribute to reduce noise.
- Drop-in replacement for WhisperFlo® High Performance Pump models and an easy substitute for Challenger® High Pressure Pumps.
- Field-proven reliability no other variable speed brand can match.
- WEF [5.6](#) THP [3.95](#).
