

AquaPlus®

2-IN-1 AUTOMATION AND SALT CHLORINATION

Powerful automation meets pristine water quality.

AquaPlus® simplifies pool and spa ownership by bundling Hayward's popular control capabilities and salt chlorination into one easy-to-order, easy-to-install package. Control any pool or spa function you like, and get the softest, silkiest water possible. Plus, when you integrate AquaPlus® with Sense & Dispense®, you'll get complete control of water chemistry to minimize maintenance and maximize relaxation.

Powerful automation meets pristine water quality.

Make your backyard work for you.

AquaPlus® takes the work out of pool and spa ownership by automating all work-intensive functions, such as sanitization, balancing pH and chlorine levels, cleaning and filtration. For even more control, customize your system to manage other backyard features — landscape and pool lighting, water features and more.

Using the world's #1 salt chlorination cell to automatically convert dissolved salt into just the right amount of chlorine, AquaPlus effectively satisfies 100% of your pool's chlorination needs so you can forget about mixing or measuring liquid or tablet chlorine. Providing the softest, most luxurious pool water possible, salt chlorination is the more natural way to sanitize your pool.

Perhaps best of all, AquaPlus saves you money — by automating essential pool and spa functions, you can save up to 70% on your pool's energy usage.

2 MODELS TO CHOOSE FROM

PL-PLUS

- 4 Relays
- 3 Valve Outputs
- 1 Conventional Heater
- 1 Solar Heater
- Automatic Chlorine Generation for Pools Up to 40,000 Gallons

Choose user-friendly extras to turn easy into effortless.

Backyard access from anywhere.

AquaConnect allows you to control your backyard from the web, through your home's Wifi® network, and via apps for iPhone®, iPad® and Android™. Whether you need to turn up the spa on your way home from work, or turn off your pool lights from inside your house, AquaConnect® gives you the freedom of even easier control.

AquaConnect®

Automatic chemistry management.

Hayward has the industry's only automation line with an integrated Total Pool Chemistry® option. Sense and Dispense continuously monitors chlorine and pH levels and dispenses what the water needs, only when it needs it. Sense and Dispense can help you achieve the most consistent water quality possible, eliminating unhealthy chemical highs and lows.

Sense and Dispense®
